Our catalog features unique rod and finial combinations organized by rod diameter - 2", 1 1/2", 1", 3/4" and 1/2" series. All finials are custom made to fit a specific rod diameter and may not be available on other rod diameters. All finials are welded to the rods and are not interchangeable.

To simplify pricing, rods are priced in two foot increments, although the rod will be manufactured to the precise length specified on your order form. Two finials are included in the price of each rod, with the exception of inside mount rods which don't have finials.

Rod Separators

A rod separator is a male/female connector piece that allows a rod to be separated into multiple pieces. A rod separator is included on all rods to accommodate shipping and the use of rings. On rods less than 76", the rod separator will be placed at one end of the rod near the finial. For rods over 76", the rod separator will be placed at the center of the rod.

Returns

All drapery rods are custom made to your specifications and changes are not possible once your order has been confirmed. No exchanges or refunds. Rings and standard brackets may be returned within 30 days of shipment date, when authorized by Cassidy West, and are subject to a 25% restocking fee. Return authorization number required. Purchaser responsible for return shipping.
